william o neal interview: Black Revolutionaries Joe Street, 2024-11 *Black Revolutionaries* is an accessible yet rigorously argued history of the Black Panther Party (BPP), one of the emblematic organizations of the 1960s. Joe Street highlights the complexity of the BPP's history through three key themes: the BPP's intellectual history, its political and social activism, and the persecution its members endured. Together, these themes confirm the BPP's importance in understanding Black America's response to white oppression in the 1960s and 1970s. Based on a wealth of archival material, *Black Revolutionaries* reveals the enduring importance of leftist political philosophy to 1960s and 1970s radicalism, and how the BPP helps us to understand more deeply the role of public space and public protest in the 1960s. Street shows how the BPP were key to the transformation of political activism in the post-civil rights era. As the BPP faced the psychological and organizational impacts of FBI surveillance, police repression, and imprisonment, Street examines how these negative forces helped to shape and destroy the BPP. Most significantly, *Black Revolutionaries* demonstrates that an understanding of African American grassroots politics and protest, racial injustice, and police brutality in the post-civil rights era is only comprehensible through engagement with the BPP's history.

william o neal interview: *Black Film Through a Psychodynamic Lens* Katherine Marshall

Woods, 2024-11-13 *Black Film Through a Psychodynamic Lens* delves into the nuanced character development and narrative themes within the struggles and successes presented in Black films over the last five decades. In this pioneering book, Katherine Marshall Woods looks at Black cinema from a psychological and psychoanalytic perspective. Focusing on a decade at a time, she charts the development of representation and creative output from the 1980s to the present day. She deftly moves from analyzing depictions of poverty and triumphs to highlighting the importance of cinema in shaping cultural identity while considering racial prejudice and discrimination. Adopting theoretical viewpoints from Freud to bell hooks, Marshall Woods examines the damaging effect on cultural psychology as a result of stereotypical racial tropes, and expertly demonstrates the healing that can be found when one sees oneself represented in an honest light in popular art. From *Do the Right Thing*, *The Color Purple* and *Malcolm X* to contemporary classics like *12 Years a Slave*, *Black Panther* and *American Fiction*, this book is an essential read for those interested in the intersection between Psychology, Psychoanalysis, Film Theory, and African American cultural identity.

william o neal interview: *Enchantment the Art and Life of Lilian Westcott Hale* Diane Elizabeth Kelleher, 2013-10-28 As the title suggests, this book concerns the art and life of the world's only American Linear Impressionist, Lilian Westcott Hale. Born in Connecticut in 1881, Hale was educated primarily at the School of the Museum of Fine Arts, Boston, and lived for many years in nearby Dedham, moving to Charlottesville, Virginia after the death of her beloved educator, art critic, author, and painter husband, Philip Leslie Hale. A woman, Hale far outpaced the success of many men, including her husband. During her early decades of activity, Hale garnered innumerable national awards, accolades, and prizes, and international acclaim for her oil portraits of children, women in interiors, and charcoal sketches of snowy landscapes, all created in an Impressionist style utilizing only vertical strokes. Hale was the originator and sole practitioner of a technique which paradoxically used line in an Impressionist manner. While her classic art fell out of favor during the Modernist 1940s and later, it is now once again very much in vogue. My relationship with the artist's only child, her daughter, Nancy, was of immeasurable assistance in the production of this book. Diane Elizabeth Kelleher Shrewsbury, Massachusetts, 2013.

Ayres, 2016-04-13 This is a book that exposes the practice of racial betrayal among African Americans and how J. Edgar Hoover used that slavery-imposed mindset on certain individuals within the Black community to undercut and stagnate Black struggle and progress in the Twentieth century.

william o neal interview: *The Assassination of Fred Hampton* Jeffrey Haas, 2019-11-05 Read the story behind the award-winning film *Judas and the Black Messiah* On December 4, 1969, attorney Jeff Haas was in a police lockup in Chicago, interviewing Fred Hampton's fiancée. Deborah Johnson described how the police pulled her from the room as Fred lay unconscious on their bed. She heard one officer say, He's still alive. She then heard two shots. A second officer said, He's good and dead now. She looked at Jeff and asked, What can you do? The Assassination of Fred Hampton remains Haas's personal account of how he and People's Law Office partner Flint Taylor pursued Hampton's assassins, ultimately prevailing over unlimited government resources and FBI conspiracy. Fifty years later, Haas writes that there is still an urgent need for the revolutionary systemic changes Hampton was organizing to accomplish. Not only a story of justice delivered, this book spotlights Hampton as a dynamic community leader and an inspiration for those in the ongoing fight against injustice and police brutality.

william o neal interview: *Tennessee William's The Night of the Iguana* Diane Sol, 1994

william o neal interview: *Voices from the Pastime* Nick Wilson, 2000-07-15 Over 1,500 men played major league baseball during the golden era of the 1920s, and over 850 played in the Negro Leagues during the same decade. At the end of the 20th century only about 20 of those men were

still alive. The author of this work tracked down all of those players, 14 of whom were able to grant an interview. In this unique book, those 14 players, a Cuban leaguer and five former sportswriters give first person accounts of baseball in the 1920s and early 1930s. They talk of the greatest players in the history of the game--Babe Ruth, Josh Gibson, Satchel Paige, Walter Johnson and Martin Dihigo--and of their own memorable careers. The personal accounts are then complemented by historical analysis from the author. Those interviewed are major leaguers Bill Rogell, Willis Hudlin, Clyde Sukeforth, Ray Hayworth, Paul Hopkins, Bob Cremins, Frank Stewart, Karl Swanson, Mel Harder, Ben Sankey, Carl Sumner and Bill Werber; Negro leaguers Ted Radcliffe and Harold Tinker; Cuban leaguer Rodolfo Fernandez; and sportswriters Will Cloney, Fred Russell, Harold Rosenthal, Carl Lundquist and Will Grimsley.

william o neal interview: The Black Panthers and the Soviets Meredith L. Roman, 2025-05-15 The contemporaneous movements for human rights that Soviet rights defenders and the Black Panthers waged during the 1960s are analysed in a comparative fashion here for the very first time. The book also examines the extra-legal measures that both the KGB and FBI employed to destroy them. The Black Panthers and the Soviets innovatively compares Soviet human rights activists' exposure of the workings of the Soviet police state with the miniature, city-level surveillance police states that the Black Panthers exposed as operating across the United States. It illuminates the legal tactics of counter-surveillance that Soviet rights defenders and the Black Panthers employed as a means of restraining acts of state-sanctioned violence. The book also highlights how the U.S. production of knowledge about Soviet 'dissidents' reified white supremacist, anti-communist notions of dissent, human rights, and state violence that facilitated the repression of the Black Panthers and the mass incarceration of African Americans as criminals. Meredith L. Roman disrupts the enduring Cold War binaries of authoritarianism-democracy and oppression-freedom that obscure our understanding of the complex, overlapping histories of these two superpowers. Roman convincingly argues that the Soviet rights defenders and the Black Panthers' vast documentation of domestic human rights abuses and the repressive measures that they faced for mobilizing to end them serve as an important societal reminder; they reaffirm that genuine democracy and the safeguarding of human rights are incompatible with authoritarian practices, the conditions of racial capitalism, and the ideology of national security.

william o neal interview: *Early Latino Ballplayers in the United States* Nick C. Wilson, 2016-04-05 From 1900 through the 1940s Latino baseball players suffered discrimination, poor accommodations, low pay and homesickness to play a game they loved. Those who were both talented and light-skinned enough to make it to the majors were mocked for being foreign. Those in the Negro Leagues were, like African American ballplayers, segregated and largely ignored by the public and major league scouts. Building on the work of researchers who focused on the seasons and careers of these pioneer athletes, Nick Wilson draws on primary documents and interviews to round out our knowledge of the players as people. Jose Mendez, Miguel Gonzalez, Luis Tiant, Sr., Martin Dihigo, Rodolfo Fernandez, Roberto Ortiz, Cristobal Torriente, Hiram Bithorn and Pedro Preston Gomez are only a few examples of the players included here. Appendices on Americans Who Positively Influenced Latin Migration and Latinos and the Washington Senators Spring Training Camps, 1939-1942 are included, along with 26 photos, appendices, notes, bibliography, index.

Through interviews with Malik Rahim,

the Panther; Robert H. King, Panther and member of the Angola 3; Larry Preston Williams, the black policeman; Moon Landrieu, the mayor; Henry Faggen, the Desire resident; Robert Glass, the white lawyer; Jerome LeDoux, the black priest; William Barnwell, the white priest; and many others, Orissa Arend tells a nuanced story that unfolds amid guns, tear gas, desperate poverty, oppression, and inflammatory rhetoric to capture the palpable spirit of rebellion, resistance, and revolution of an incendiary summer in New Orleans.

william o neal interview: New Poverty Studies Judith G. Goode, Jeff Maskovsky, 2001 Stock market euphoria and blind faith in the post cold war economy have driven the topic of poverty from popular and scholarly discussion in the United States. At the same time the gap between the rich and poor has never been wider. The New Poverty Studies critically examines the new war against the poor that has accompanied the rise of the New Economy in the past two decades, and details the myriad ways poor people have struggled against it. The essays collected here explore how global, national, and local structures of power produce poverty and affect the material well-being, social relations and politicization of the poor. In updating the 1960s encounter between ethnography and U.S. poverty, The New Poverty Studies highlights the ways poverty is constructed across multiple scales and multiple axes of difference. Questioning the common wisdom that poverty persists because of the pathology, social isolation and welfare state dependency of the poor, the contributors to The New Poverty Studies point instead to economic restructuring and neoliberal policy reforms which have caused increased social inequality and economic polarization in the U.S. Contributors include: Georges Fournon, Donna Goldstein, Judith Goode, Susan B. Hyatt, Catherine Kingfisher, Peter Kwong, Vin Lyon-Callo, Jeff Maskovsky, Sandi Morgen, Leith Mullings, Frances Fox Piven, Matthew Rubin, Nina Glick Schiller, Carol Stack, Jill Weigt, Eve Weinbaum, Brett Williams, and Patricia Zavella. These contributions provide a dynamic understanding of poverty and immiseration—North American Dialogue, Vol. 4, No. 1, Nov. 2001

william o neal interview: Up Against the Wall Curtis J. Austin, 2008-03-01 Curtis J. Austin's *Up Against the Wall* chronicles how violence brought about the founding of the Black Panther Party in 1966 by Huey P. Newton and Bobby Seale, dominated its policies, and finally destroyed the party as one member after another—Eldridge Cleaver, Fred Hampton, Alex Rackley—left the party, was killed, or was imprisoned. Austin shows how the party's early emphasis in the 1960s on self-defense, though sorely needed in black communities at the time, left it open to mischaracterization, infiltration, and devastation by local, state, and federal police forces and government agencies. Austin carefully highlights the internal tension between advocates of a more radical position than the Panthers took, who insisted on military confrontation with the state, and those such as Newton and David Hilliard, who believed in community organizing and alliance building as first priorities. Austin interviewed a number of party members who had heretofore remained silent. With the help of these stories, Austin is able to put the violent history of the party in perspective and show that the "survival" programs, such as the Free Breakfast for Children program and Free Health Clinics, helped the black communities they served to recognize their own bases of power and ability to save themselves.

william o neal interview: Power to the Poor Gordon K. Mantler, 2013-02-25 The Poor People's Campaign of 1968 has long been overshadowed by the assassination of its architect, Dr. Martin Luther King Jr., and the political turmoil of that year. In a major reinterpretation of civil rights and Chicano movement history, Gordon K. Mantler demonstrates how King's unfinished crusade became

the era's most high-profile attempt at multiracial collaboration and sheds light on the interdependent relationship between racial identity and political coalition among African Americans and Mexican Americans. Mantler argues that while the fight against poverty held great potential for black-brown cooperation, such efforts also exposed the complex dynamics between the nation's two largest minority groups. Drawing on oral histories, archives, periodicals, and FBI surveillance files, Mantler paints a rich portrait of the campaign and the larger antipoverty work from which it emerged, including the labor activism of Cesar Chavez, opposition of Black and Chicano Power to state violence in Chicago and Denver, and advocacy for Mexican American land-grant rights in New Mexico. Ultimately, Mantler challenges readers to rethink the multiracial history of the long civil rights movement and the difficulty of sustaining political coalitions.

william o neal interview: Ink Clifford R. Murphy, 2024-07-23 The product of a hardscrabble childhood, J. Mayo "Ink" Williams parlayed an Ivy League education into unlikely twin careers as a foundational producer of Black music and pioneering Black player in the early NFL. Clifford R. Murphy tells the story of an ambitious, upwardly mobile life affected, but never daunted, by white society's racism or the Black community's class tensions. Williams caroused with Paul Robeson, recorded the likes of Ma Rainey and Blind Lemon Jefferson, and lined up against Chicago Bears player-coach George Halas. Though resented by the artists he exploited, Williams combined a rock-solid instinct for what would sell with an ear for music that put him at the forefront of finding, recording, and blending blues and jazz. Murphy charts Williams's wide-ranging accomplishments while providing portraits of the cutthroat recording industry and the possibilities, however constrained, of Black life in the 1920s and 1930s. Vivid and engaging, *Ink* brings to light the extraordinary journey of a Black businessman and athlete.
