**wilson property management email: Politics: Last Act of Defiance** Scott Bolinger, 2021-10-14 Introduction This book was started based on my fight against a corrupt government. I served on a community board and ran for several public offices. The local city government and city council did not like my campaigns so I became a political target. I took a lot of heat from the local government for several years with them interfering with my business and my everyday life. I had to put up with their misinformation and defamatory campaigns. After a couple of years of being attacked regularly, I decided that I should start recording every encounter. A couple of encounters is not a big deal. 50 encounters start to become a big deal. So I started collecting all documents to prepare for a possible suit against the city. After several years of taking heat and the government's refusal to let up, I figure they were not going to go away. The local government made me a political target which destroyed both my reputation and business. I had put up with the city creating misinformation about me and my business. I was harassed, segregated, and ostracized and they put me in a position that forced me to consider packing up and moving out of town or to fight back. This book goes through many of the battles I went through. It also goes through many of the policies that I have sent to local, state, and federal lawmakers to help promote change. I also go through several research analyses that I had conducted. I hope that this book will help serve as inspiration for people to keep fighting and if that doesn't work, then fight smart.
