willow creek global leadership summit: The Jesus Quotient Jennie A. Harrop, 2019-06-21 As leaders, our capacity to hear is often muddled by an inability to acknowledge our own insufficiencies and emotions. Jesus knew his God-given purpose and emotional character so deeply that he was able to operate out of these foundations boldly and instinctively. Jesus's infallible Intelligence Quotient (IQ) and Emotional Quotient (EQ) allowed him to focus on a third concept called Audience Quotient (AQ): an individual's ability to focus consistently, completely, and effectively on others. As a church, we are failing a twenty-first-century culture that is defined by an unprecedented interconnectedness and speed of information. We are witnessing a scramble to manipulate and manage information that demands renewed integrity, and yet the church is seen as hypocritical, judgmental, and irrelevant. If we are going to earn a voice, the future church cannot be about the components of church at all, but instead the individual souls within the church--pastors included. The better we ground ourselves in the truth of who we were created to be (IQ, EQ, and AQ), the better able we will be to love God fully and love those around us as we love ourselves. That, after all, is what Jesus commanded us to do.

willow creek global leadership summit: The Preacher's Wife Kate Bowler, 2020-09-15 Although most evangelical traditions bar women from ordained ministry, many women have carved out unofficial positions of power in their husbands' spiritual empires or their own ministries. The biggest stars write bestselling books, grab high ratings on Christian television, and even preach. Bowler offers a sympathetic and revealing portrait of megachurch women celebrities, showing how they must balance the demands of celebrity culture and conservative, male-dominated faiths. And black celebrity preachers' wives carry a special burden of respectability. A compelling account of women's search for spiritual authority in the age of celebrity. -- adapted from jacket

willow creek global leadership summit: The Three-Box Solution Vijay Govindarajan, 2016-04-26 How to Innovate and Execute Leaders already know that innovation calls for a different set of activities, skills, methods, metrics, mind-sets, and leadership approaches. And it is well understood that creating a new business and optimizing an already existing one are two fundamentally different management challenges. The real problem for leaders is doing both, simultaneously. How do you meet the performance requirements of the existing business—one that is still thriving—while dramatically reinventing it? How do you envision a change in your current business model before a crisis forces you to abandon it? Innovation guru Vijay Govindarajan expands the leader's innovation tool kit with a simple and proven method for allocating the organization's energy, time, and resources—in balanced measure—across what he calls “the three boxes”:

- Box 1: The present—Manage the core business at peak profitability
- Box 2: The past—Abandon ideas, practices, and attitudes that could inhibit innovation
- Box 3: The future—Convert breakthrough ideas into new products and businesses

The three-box framework makes leading innovation easier because it gives leaders a simple vocabulary and set of tools for managing and measuring these different sets of behaviors and activities across all levels of the organization. Supported with rich company examples—GE, Mahindra & Mahindra, Hasbro, IBM, United Rentals, and Tata Consultancy

Services—and testimonies of leaders who have successfully used this framework, this book solves once and for all the practical dilemma of how to align an organization on the critical but competing demands of innovation.

willow creek global leadership summit: Cosmopolitan Perspectives on Academic Leadership in Higher Education Feng Su, Margaret Wood, 2017-02-23 This book explores what academic leadership in higher education might mean in the cosmopolitan and increasingly globalised 21st century through individual academics' narrative accounts drawn from a range of international contexts. The book shows that academic leadership is key to an individual's development and that it could mean different things in different settings as academics operate across the levels of professional practice, institutional organisation, sector-wide systems and international networks. This book argues for the importance of cosmopolitan perspectives on academic leadership which are developed from the particularities of local and everyday situated experience. Part I of the book explores key theoretical perspectives; Part II provides first-hand accounts from the contributors of their own development as academic leaders; and Part III discusses some of the implications for those with responsibility for academic development and for all those concerned with developing the qualities necessary for leadership practices.

willow creek global leadership summit: Caring for Clergy Thad S. Austin, Katie R. Comeau, 2022-07-26 Like Aaron and Hur who lifted the arms of Moses during battle (Exodus 17), this book highlights the critical work of clergy care providers in America. These individuals and organizations support clergy by providing counseling, coaching, spiritual direction, funding, hospitality, education, and benefits upon which clergy rely. Their ministry strengthens congregations and has the capability to produce an exponential return for the kingdom of God. Yet, these providers are often disconnected. Our groundbreaking national research reveals gaps in the training, qualifications, and formational experiences of clergy care providers. We note differences in language that hinder effective communication as well as significant disparities in the literature that informs clergy care. Addressing these disconnects has the potential to improve the lives of clergy and the congregations and communities clergy serve. Whether you are a clergy care provider, a clergyperson, or a lay leader, we invite you to respond. Working together, we envision a connected network of providers offering more effective support for clergy and improving the congregations and communities they serve.

willow creek global leadership summit: Escaping the Maze of Spiritual Abuse Lisa Oakley, Justin Humphreys, 2019-06-20 'Authority and rigour ... great generosity and gentleness. The authors diagnose a critical problem in the church and offer practical advice on how to fix it.' Andrew Graystone, theologian, broadcaster and communications consultant 'Every time he wanted me to do something, he would quote scripture... I couldn't argue with scripture, it was like arguing with God.' The term 'spiritual abuse' is widely used across the Christian community. But what is it? Sometimes spiritual abuse involves leaders misusing their position, but ministers can also be the victims. Common factors include control through misuse of scripture, claims to divine authority, pressure to conform, and enforced accountability. Individuals may be isolated, and compelled to secrecy and silence. Drawing on a combination of extensive research, individual testimonies, and years of hands-on experience, Lisa Oakley and Justin Humphreys describe clearly the nature of spiritual abuse, and the best ways of countering it. Recovery is possible. But – how do we prevent spiritual abuse in the first place? What can leaders do to create safer places? Is there a link between theological ideas and harmful behaviours? How can leaders create opportunities for spiritual and emotional flourishing? Dr Lisa Oakley has researched spiritual abuse in the Christian faith in the UK since 2003. Justin Humphreys is chief executive of the safeguarding charity thirtyone: eight.

Christian pastors and laypeople will learn more about this increasingly prominent and influential form of their faith.

willow creek global leadership summit: Signs of the Times Brian A. Ross, 2016-03-18 All ministry leaders concern themselves with the intersection of Jesus-centered ministry and contemporary culture. They ask themselves questions such as, What do we need to change in order to keep up with a wired world? What should never change? What are the nonnegotiables of faith in Jesus? Many have attempted to answer these questions. However, most of these leaders offer solutions that the everyday ministry leader simply cannot replicate. *Signs of the Times* is a unique offering to those who wrestle with the mash-up of ministry and culture. All of the contributors have found success within their ministries, and yet most do not minister to thousands on a weekly basis. Additionally, all of them have had the privilege of studying directly with Dr. Leonard I. Sweet. Despite having authored more than fifty books, Sweet can still be a bit of an enigma. Many of his readers have been deeply influenced by him, and yet they may still struggle to understand what his insights might mean for their ministry. Each of the contributors to this work thoughtfully engages with a key idea that they personally learned from Sweet and they translate it for ministry in the early twenty-first century.

willow creek global leadership summit: Neoliberal Religion Mathew Guest, 2022-07-14 This book explores neoliberalism as an account of contemporary society and considers what this means for our understanding of religion. Neoliberalism is a perspective grounded in free market economics and distinguished by a celebration of competition and consumer choice. It has had a profound influence in societies across the world, and has extended its reach into all areas of human experience. And yet neoliberalism is not just about enterprise and opportunity. It also comes with authoritarian leadership, gross inequality and the manipulation of information. How should we make sense of these changes, and what do they mean for the status of religion in the 21st century? Has religion been transformed into a market commodity or consumer product? Does the embrace of business methods make religious movements more culturally relevant, or can they be used to reinforce inequalities of gender or ethnicity? How might neoliberal contexts demand we think differently about matters of religious identity and power? This book provides an accessible discussion about religion in the 21st century. Mathew Guest asks what distinguishes neoliberal religion and explores the sociological and ethical questions that arise from considering its wider significance.

willow creek global leadership summit: Called to Create Jordan Raynor, 2017-11-07 We were created by an infinitely creative God to reflect his love and character to the world. One way we do that is by continuing his creative work. In this energizing book, serial entrepreneur and bestselling author Jordan Raynor helps artists, entrepreneurs, writers, and other creatives reimagine our work as service to God and others, addressing such penetrating questions as - Is my work as a creative really as God-honoring as that of a pastor or missionary? - What does it look like to create not to make a name for myself but to glorify God and serve others? - How can I use my work to fulfill Jesus's command to create disciples? - Will what I make today matter in eternity? To answer these questions, Raynor shares compelling stories from an eclectic group of 40+ Christian entrepreneurs,

including the founders of TOMS Shoes, Charity: Water, Chick-fil-A, In-N-Out Burger, Guinness, HTC, and Sevenly, as well as nontraditional entrepreneurs such as C. S. Lewis, Johann Sebastian Bach, and J. R. R. Tolkien. Perfectly poised to reach today's growing creative class, this unique work restores God's position as the first entrepreneur, helping readers see the eternal value in the work they do today.

willow creek global leadership summit: A Land Full of God Mae Elise Cannon, 2017-05-12
A Land Full of God gives American Christians an opportunity to promote peace and justice in the Israeli-Palestinian conflict. It shows them how to understand the enmity with brief, digestible, and comprehensive essays about the historical, political, religious, and geographical tensions that have led to many of the dynamics we see today. All the while, A Land Full of God walks readers through a biblical perspective of God's heart for Israel and the historic suffering of the Jewish people, while also remaining sensitive to the experience and suffering of Palestinians. The prevailing wave of Christian voices are seeking a pro-Israeli, pro-Palestinian, pro-peace, pro-justice, pro-poor, and ultimately pro-Jesus approach to bring resolution to the conflict.
