willow creek leadership summit 2024: *A Liturgy for Wholeness* Mike Bellanti, 2024-09-29 Pastoral ministry is a holy calling, brimming with joy and fulfillment, yet it can also bring a heavy weight of discouragement and frustration. In *A Liturgy for Wholeness*, author Pastor Mike Bellanti offers a one-year pilgrimage into the heart of flourishing within the complex context of church service. By exploring four key arenas of flourishing—calling, daily well-being, formational relationships, and resilience—pastors can find wholeness and reimagine their path to thriving in ministry. This fifty-two-week series of practices invites pastors to pause weekly to reflect on their interior life and the state of their soul. Filled with reflective exercises and practical applications, *A Liturgy for Wholeness* provides an accessible guide for busy pastors seeking to flourish in their ministry.

willow creek leadership summit 2024: *Global Burning* Eve Darian-Smith, 2022-04-19 How extreme-right antidemocratic governments around the world are prioritizing profits over citizens, stoking catastrophic wildfires, and accelerating global climate change. Recent years have seen out-of-control wildfires rage across remote Brazilian rainforests, densely populated California coastlines, and major cities in Australia. What connects these separate events is more than immediate devastation and human loss of life. In *Global Burning*, Eve Darian-Smith contends that using fire as a symbolic and literal thread connecting different places around the world allows us to better understand the parallel, and related, trends of the growth of authoritarian politics and climate crises and their interconnected global consequences. Darian-Smith looks deeply into each of these three cases of catastrophic wildfires and finds key similarities in all of them. As political leaders and big business work together in the pursuit of profits and power, anti-environmentalism has become an essential political tool enabling the rise of extreme right governments and energizing their populist supporters. These are the governments that deny climate science, reject environmental protection laws, and foster exclusionary worldviews that exacerbate climate injustice. The fires in Australia, Brazil and the United States demand acknowledgment of the global systems of inequality

that undergird them, connecting the political erosion of liberal democracy with the corrosion of the environment. Darian-Smith argues that these wildfires are closely linked through capitalism, colonialism, industrialization, and resource extraction. In thinking through wildfires as environmental and political phenomenon, *Global Burning* challenges readers to confront the interlocking powers that are ensuring our future ecological collapse.

willow creek leadership summit 2024: *The Church in Dark Times* Mike Cosper, 2024-11-19 We expect evil to appear in obvious forms: malice, cruelty, and contempt. We also expect to find villains at the helm of evil movements and organizations, leaders with dark impulses and motivations. But all too often, malevolence is more subtle, hiding behind our own best intentions. In *The Church in Dark Times*, cultural critic Mike Cosper unveils this dynamic in the growing crisis of abuse and other failures in modern evangelical churches. Drawing on the work of twentieth-century political theorist Hannah Arendt, Cosper explores what we can learn from her theory of the banality of evil—the thoughtlessness that allows ordinary people to become complicit in all manner of corruption. He uncovers the underlying causes of the breakdowns of the church and offers practices that foster healing and renewal. This book will engage Christian leaders and all followers who want to better understand how church crises keep happening—and how we can resist them and move forward.

The book analyses the origin, content, and likely consequences of these flagship proposals, placing them within the broader framework of China's foreign policy strategy during the Xi era. The authors explore how, through the GSI, GDI and GCI, Beijing seeks to present a coherent global vision that spans the realms of security, development, and political ideology. willow creek leadership summit 2024: American Global Leadership G. Slobodchikoff present a selection of fifteen essays that trace the history of American diplomacy from Eisenhower to Trump. Penned by American statesmen—among them, James A. Baker III, General Wesley Clark, Thomas Pickering, and Michael McFaul—these essays illuminate US foreign policy through the Cold War, the Iraq and Afghan wars, the economic crisis of 2008, and the instability that arose during Trump's presidency. Each chapter reflects the wisdom and experiences of its author to illustrate the realities of diplomacy in the United States and the difficulties diplomats, military leaders, and foreign policymakers encounter today. Among other themes, the discussions in this volume explore the relevance of diplomacy in resolving global crises, the use of military policy and force as diplomatic tools, skills diplomats should possess,

and current obstacles facing US foreign policy. Through the lens of their professional service as US diplomats, the authors examine American mistakes and successes of the past seventy years to assess how the role of diplomacy within US foreign policy has changed over time and how it must continue to evolve to meet future challenges. One conclusion proves recurrent: the US can no longer afford to rely only on might and force but must rededicate itself to diplomatic strategies to achieve its long-term goals. *American Global Leadership* is not just a valuable resource for scholars of diplomatic history and political science; it is also an important work for current diplomats and those aspiring to careers in the US Foreign Service.
